⁽c) The total of column 40 exceeds by 13 the actual half of the total ordinary recurring cost of all the municipalities. This is due to avoiding fractions in halving (d) That is more than double the present numbers in primary schools and nearly do ble the total new in primary schools and maktain tegether.

⁽a) The average education case proposed varies from As. 19 to Re. 2 per annum. It is, therefore, perhaps natural to think that the rate-payers paying As. 12 of less per annum as municipal tax should be exempted. A comparison of the figures shown in column 8 with the number of rate-payers proposed for exemption in the less per annum as municipal tax should be exempted. A comparison of the figures shown in column 8 with the number of rate-payers proposed for exemption in the various schemes shown that in a large-number of cases the former greatly exceeds the latter. This leads the special officer to doubt the practicalities on various schemes shown that in a large-number of all the municipalities and to advise their careful quantitative according to their resources.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Bhadol Crops of Bengal, 1922-23.

[Note.—On an average of the five years ending 1920-21, the area under autumn rice in Bengal has represented some 6-4 per cent. of the total area under rice in British India.]

Character of the season.—As indicated in the preliminary forecast, the weather at the outset was unfavourable owing to unusually prolonged drought which continue t up till May. Consequently sowings which commenced slowly in the early part of April finished as late as June. Good rainfall during this month, however, favoured the growth of the crops. The rainfall in the months of July and August was unevenly distributed, with the result that floods caused considerable damage to the low-land crops, especially to ripe paddy in parts of North and East Bengal. Highland crops, on the other hand, fared well. On the whole, a fair crop has been reaped for the province.

Acreage.—The total area sown with the different bhadoi crops this year is reported to be 5,938,100 acres as against 6,477,000 acres last year. Of this, the area under autumn rice is estimated at 5,160,200 acres as against 5,607,300 acres last year.

Outturn.—According to the District Officers' estimates, the outturn of autumn rice as well as of all the bhadei crops together work out at 78 per cent, of the normal for the

Presidency as against 85 per cent. last year.

Accepting 78 per cent. as the outturn of autumn rice this year, the gross outturn of the crop for the Presidency on the basis of a normal yield of 10; maunds of clean grain per acre is estimated at 1,589,400 tons this year as against 1,838,400 tons reported in the contraction of less was corresponding forecast of last year.

R. S. FINLOW, (

Director of Agriculture, Bengal (offg.).

DACCA,

The 2nd December 1922.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third Forecast of the Cotton Crops of Sengal, 1922-23.

[Norg. On an average of the five years ending 1920-21, the area under the cotton crops in Bengal has represented some 0.2 per cent. of the total area under cotton in India.]

THERE are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—The early crop suffered in its early stages through prolonged drought, but since then favourable weather has somewhat impreved the prospects.

A fair outturn is anticipated.

The late crop is thriving well on the whole.

Area sown.—The total area sown with the early crop is returned at 70,186 acres and that with the late crop 1,500 acres, against 64,166 acres and 1,013 acres (now revised), respectively, in the corresponding forecast of last year.

Outturn. - The estimated outturn of the early crop is returned at 18,018 bales this year against 14,250 bales in the corresponding forecast of last year. The outturn of the late crop is estimated at 537 bales this year against 451 bales (now revised) in the corresponding forecast of last year.

R. S. FINLOW,

Director of Agriculture, Bengal (offg.).

DACCA, the 7th December 1922.

⁽a) For Murshidabud, Birbhum, Hooghiy, Rajahahi, Rangpur, Bogra, Malda and Noakhali.

⁽¹⁾ The weather was favourable to the growth of the crop. The heresting of the early crop is normal.

(2) The weather and congral applicant of the stony were not good.

⁽⁴⁾ Continuous drought after sowing hampered the growth of the plants. Since then the effects of the weather wire favourable. The date of harvesting is normal.

(5) Want of rain at sowing time affected the coulising of the plants. Het appears to produce the weather wire favourable.

⁽⁶⁾ The weather has not been favourable. The condition of the croe is fall and the date of heart state.

DISTRICT REPORTS ON WEATHER AND GROPS

Fog the week ending on the 6th December 1922.

Summary.—There was no rainfall throughout the Presidency excepting some scattered showers in parts of Darjeeting. Prospects of standing crops are generally good. Harvesting of winter paddy continues briskly. Sowings of spring crops are nearly finished. The outturn of early cotton is expected to be fair. The average price of common rice for the province has fallen by about 1.9 per cent. as compared with that of the previous week.

LIBERALITY OF BABU HARENDRA KUMAR RAY CHOUDHURY, BALIATI.

No. 2525Edn., Jated Calcutta, the 9th December 1922.

From S. W. GOODE, Esq., I.C.S., Secretary to the Government of Bengal, Education Department (offg.),

To-The Commissioner of the Dacca Division.

With reference to your letter No. 6990J., dated the 25th October 1922, I am directed to request that you will be so good as to convey the thanks of Government (Ministry of Education) to Babu Harendra Kumar Ray Choudhury of Baliati, in the district of Dacca, for his liberality and public spirit in rashing a donation of Rs. 15,000 district of Dacca, for his liberality and public spirit in rashing a donation of Rs. 25,000 for the construction of a pucca building for the Baliati Iswar Chandra H. E. School.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Porcoast of the Winter Rice Crop of Bengal, 1922-23.

[Norg.-On an average of the five years ending 1950-21, the area under Winter Rice in Bengal has represented some 197 per cent. of the total area under rice in British Iudia.]

Character of the Season.—The aute-monsoon season was marked this year by the prevalence of a prolonged drought, which extended during the period November 1921 to the end of May 1922. The preparatory tillage was seriously hampered in consequence and sowings of broadcast paddy, which commenced slowly during the early part of the season, finished as late as June. The setting in of the monsoon early in June greatly revived the prospects of the broadcast variety and facilitated the transplanting operations. The rainfall in the months of July and August was unevenly distributed, with the result that floods caused some damage to the lowland crop in parts of West Bengal. The highland crop, on the other hand, fared well. Transplantation continued later than usual, till the third week of September. Towards the end of September and in the early part of October rainfall was abnormally heavy, especially in parts of North Bengal and Faridpur, causing flood and considerable damage in a number of districts, of which Caridpur, Rajshahi, Bogra, Pabna, Nadia and Jessore were the worst sufferers. In the subsequent dry weather the crop in these tracts recovered somewhat. Scattered showers in November have helped the flowering of late-sown paddy. On the whole a satisfactory crop for the broadcast variety and a good one for the transplanted variety is expected for the province.

Acreage.—According to the District Officers' estimates, the total area under winter rice amounts to 16,171,600 acres as against 15,602,800 and 15,850,200 acres, respectively, in the corresponding and final forecasts of last year.

Outture.—From the district return appended it will be seen that Burdwan, Bankura and Midnapore report a bumper crop (i.e., 133,117 and 116 per cent., respectively). The districts of Birbhum, Hooghly, Darjeeling, Rangpur, Bakarganj and the districts of the Chittagong Division report a normal crop, nine districts a crop between 92 and 83 per cent., and the rest between 79 to 58 per cent.

Accepting 92 per cent as the provincial outturn worked out on the District Officers, estimates the gross yield of cleaned grain from the winter rice crop, on the basis of a normal yield of 12½ magnds per acre, amounts to 6,831,700 tons this year as against 6,806,300 and 7,278,200 tons, respectively, in the corresponding and final forecasts of last year.

R. S. FINLOW,

Director of Agriculture, Bengal (offg.) ..

DACCA, the 12th December 1992.

APPENDIX I.

Second Forecast of the Winter Rice Grop of Bongal, 1928-22.

| District. | Estimated bormat area under | Betimated winter | area under | a percent- | outturn as being of the rield per f area. | Date by which tile harvest- ing gon-raily commenced this year and whether | |
|--------------|-----------------------------------|-------------------------|----------------------|------------|---|---|---|
| | winter | Last year (1921-22). | This year (1922-23). | Last year. | This year. | that date was early, normal or late. | Remarks by District Officers. |
| 24-Pergennes | Acres. 1,041,800 | Acres. 736,100 | Acres. 718,800 | 92 | 03 a | November. Normai | The effects of weather on collivation and growth of the error have not been favourable in the subdivisions of Barasat and Diamond Harbour. Damago has been caused to the crop by floods and insect-pasts in Barasat and Diamond Harbour, and the outturn accordingly is expected to fall below the |
| Nadia | 136,800 | 218,400 | 211,700 | 88 | 88 | Not yet commenced | The weather has been favourable. Some damage was done to the crops by the late floods in the low-lauds, and the outlars is therefore expected to full below the normal. |
| Murshidabad | 61,400 | 396,00 0 | 331,400 | 76 | 93 | Ditto | The weather has been favourable. The increase in area as compared with the estimate in the first forecast is due to good rainfail and the subsequent transplantation. The outturn is expected to fail below normal by about one anna owing to the damage come to the crop by drought in the flowering susson. |
| Jessors | 868,100 | 463,900 | 485,000 | 63 | 67 | Middle of November. | The weather has not been favourable. About 50 per cent. of the crop was demaged by flood and heavy rain in some parts of the district. |
| Khuina | 626,20 0 | 781,100 | 779,000 | 93 | 93 | Ditto | The weather has been favourable. The outturn is expected to fall below the normal owing to some damage done to the crop by rather excessive rain in the early part of October. |
| Burdwan | 874,800 | 665,700 | 712,600 | 75 | 138 | End of November. Normal | The weather conditions were almost ideal, and such a good-crop has seldom been seen in the district. A bumper crop is expected in spite of the slight damage to the crop in a limited area owing to floods from the Chachramara river. |
| Birbhum | 604.700 | \$26,800 | \$26,000 | 89 | 100 | December, Normal | The weather has been favourable. |
| Bankura | 644,000 | 844,000 | °640,000 | 67 | 117 | Not yet commenced | The effects of weather have been good. A bumper crop is expected, though some damage was caused by floods and insects in places. |
| Midnapore | 1,587,100 | 1,898,500 | 1,484,000 | 108 | 116 | Ditto | The condition and effects of weather on the growth of the crop have been good. Heavy rain and floods have done some damage to the crop in certain parts of the district. The cutturn is however expected to be above the normal if no untoward circumstances happen. |
| Hooghly | 276,700 | 197,300 | 204,500 | 67 | 100 | Ditto | The weather has been favourable. A normal outturn is anticipated. |
| Howrah | 117,000 | 123,400 | • 979000 | 100 | 70 | Disto | Bifects of weather have not been favourable on the cultivation and growth of the crop is areas affected by floods. Owing to damage caused by floods in theses Panchia. Jagatballavpur. Uluberta. Amta and Singti the outturn is expected to fall below the normal. |
| Bajahahi | 829.700 | 676,700 | 785,600 | 02 | \$8 | End of November. Normal. | Severe foods at the end of September destroyed a large area under rice, especially in the subdivisions of Natore and Naogaon. In part-unaffected by flood the season has been favourable. The low outturn at compared with the first forecast is due to effects of floods. |
| Dinajpur | 1,120,200 | 939,000 | • 979,700 | 100 | . 88 | Not yet commenced | The crop on the low lands in the Balurghat sub- division has been damaged to a great extent. |

| District- | Estimated normal area under winter | | area under ir ride. | a percente | yield per | Date by which the harvest- ing generally commenced this year and whether that date was carly, | Remarks by District Officers. °° |

| Jalpaiguri | Acres. 467,460 | Acres. 392,600 | Acres. | 100 | 93 | Not yet commenced | The increase in area is due to favourable weather. The weather was on the whele favourable, but in some parts of the district the rainfall was a little |
| *Darjeeling | 50,900 | 38,600 | 23,000 | 117 | 100 | November, Normal | insufficient affecting the growth of the crop. A favourable outturn is anticipated. |
| llangpur | 813,300 | 617.900 | 637,200 | 125 | 100 | End of November and carry in December. Normal. | Since the issue of the first forecast the weathers has been favourable and its effects on the grough of the crop are good. Some damage was a load to the crop in a small portion of tan in the Saibandha subdivision bordering on the Bogra district and in the char areas of the Kurigram: abdivision by |
| Boges | 208,000 | 448,000 | 450,000 | 85 | 70 | Not yet commenced | the recent flood. Heavy floods in September last damaged the transplanted puddy partly in the western and southern parts of the district, and the outliern is therefore anticipated to fall much below the normal. |
| Pabna | 566,900 | 400,000 | 887,200 | 88 | 83 | First week of November, Normal, | About 2 annas crop was damaged by drought in the area not affected by figuls. The decrease in area as compared with the first forecast is due to subsequent revision. |
| Malda | 896,200 | 342,700 | 270,000 | 76 | 92 | Not yet commenced | The weather proved favourable to the transplanted paddy up to the first week of October. Some damage was caused to late sown broad-cast paddy by floods. The ocsastion of rain after the first week of October as well as floods affected the transplanted paddy in some parts of the district. |
| Dacca | 647,900 | 703,900 | 698,800 | 90 | 87 | November, Normal | The weather has been fairly favourable. Some damage has been caused to the crop by flood in the middle of June last. |
| Mymentingh | 1,465,500 | 1,629,000 | 1,411,500 | 117 | 8.5 | Not yet commenced | The weather has been generally favourable. Some damage has been done to the crop. |
| Faridpus | 770,100 | 761,400 | 745,200 | 100 | 59 .′ | Rad of October. Normal | The weather has not been favourable. Damage caused to the except of about 25 percent, owing to floods and heavy rain. The outturn is therefore expected to all far below the normal. |
| Bakarganj | 1,200,000 | 1,342,000 | 1,350,000 | 100 | 100 | End of November | The weather has been favourable. Further trans- plantation was done since the issue of the first fore- cast. The increase in the area as compared with the last year is due to some jute, sugarcane and ass lands having been brought inder the crop. |
| Ohittagong | 416,490 | 491,800 | 428,800 | 100 | 100 | November. Normal | The weather has been sersonable and its effects on the growth of the crop good. Damage was done to the crop by the infindion of satiste water in the low-lying area of Oox's Bazar subdivision during the cyclone of April last, but, on the whole, the outturn of the district is anticipated to be good. |
| Tippera | 787,000 | 796,400 ' | 800,400 | 133 | 100 | Ditto | The weather has been favourable and its effects on the growth of the crop good. The trop was damaged to the extent of about 8 per cent, both in the Sadar and Chandaur subdirisions owing to want of rain during the period of growth in the former and to flood in the latter. |
| Noakhali | 708,0.0 | 680,000 | 630,060 | 100 | 100 | Karly in November | The weather has been favourable for the cultivators and growth of the crop. |
| Chittagong Hill Tracis. | 47,800 | 4C,000 | 46,500 | 78 | , 100 | Rad of November | The weather has been favourable and a effects on the growth of the crop good. |
| Total Bengai | 17.488,500 | 15,880,200 | 16,171,600 | 100 | 92 | 10 | |

Calcutta improvement Trust.

THE accounts of the Calcutta Improvement Trust for the year 1920-21 having been audited by an auditor appointed by the Local Government, the following abstract of accounts is published in accordance with the provisions of section 135 of Bengal Act V.

T. EMERSON, Chairman.

CALCUTTA, the 8th December 1922.

CHAIRMAN-

Annual Accounts for the year ended Stat March 1921.

I beg to submit the accounts for the year ended 31st March 1921.

CAPITAL ACCOUNT.

At the time of preparing the budget estimates for the year 1920-21 it was estimated that the deficit on capital account at 31st March 1920 would amount to Rs. 126; lakhs, but owing to the capital receipts being Rs. 1.42 lakhs in excess of the estimate and the expenditure on land acquisition being Rs. 11.85 lakhs less than was provided for during the three months January to March, the actual deficit was Rs. 113.27 or, ap proximately, Rs. 13 lakhs better than was anticipated.

RECEIPTS.—The receipts for the year ended 31st March 1921 amounted to Rs. 47 lakks against an estimate of Rs. 99₁, lakks or Rs. 49₁, lakks excluding the new debenture loan of Rs. 50 lakks which it was found unnecessary to draw upon during the year. The difference between the actuals and the estimates of Rs. 2₁, lakks is arrived at as

| | | 1920 hudg | | | Act | unis. | | Differ | ence. |
|---|-----|---|---|--------------------|--|-------|----------------|--|-----------------------------------|
| Fees under section 78 Sale of land , buildings Premia on leases | .11 | Re. 2,00,000 45,00,000 2,00,000 7,000 | 0 | P. 0 0 0 0 0 0 0 0 | Rs. 5,92,700 37,86,600 2,97,900 22,400 Net | 0 0 0 | P. 0 0 0 0 0 0 | Rs. +3,92,700 -7,13,400 + 97,900 + 15,400 -2,97,400 | A. P. 0 0 0 0 0 0 0 0 |

EXPENDITURE.—The total expenditure for the year was Rs. 1041 lakhs or Rs. 74 lakhs less than the budget estimate. The difference between the actuals and the estimates is arrived at as follows :

| 1920-21 Actuals. | Difference. |
|---|---|
| mukos, | |
| Stores 21,80,000 0 0 14,73,000 0 0 Stores 5,60,000 0 0 2,00,000 0 0 | Rs. A. P. 63,42,000 0 0 0 7,07,000 0 0 0 3,60,000 0 0 0 |

The closing deficit on Capital Account which it was estimated would amount to Rs. 205 31 lakhs (including the receipt of Rs. 50 lakhs from the debenture loan) stood at Rs. 170.45 lakhs.

REVENUE ACCOUNT.

RECEIPTS.—The total receipts for the year are Rs. 42,80,000 against a budget estimate of R = 32,95,000 or, approximately, Rs. 10 lakhs excess arrived at as follows:-

| Dut. | | | | | Rs. | A. | P. | |
|--|---------|-------|---|-------|----------|-----|----|---------|
